

ADULT FORUM

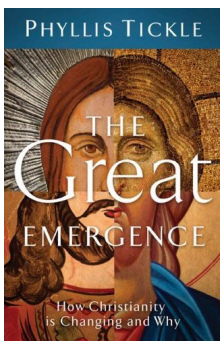

This month we have a variety of great offerings during Adult Forum time.

There is no class on January 1.

On January 8 and 15 we conclude our conversation on Dietrich Bonhoeffer's famous book on Christian community, *Life Together*.

On January 22 we welcome Dr. Richard Wong to update us on his medical mission work in Mali, Africa. Dr. Wong has made several trips to Mali in connection with Medical Teams International (headquartered in Portland). He has worked at the Hospital for Women and Infants in Koutiala, Mali, which is operated and supported by the Christian Missionary Alliance and was opened about 5 years ago to try to reduce the high mortality rate among pregnant women in that area.

On February 5 we will begin a conversation on *The Great Emergence: How Christianity is Changing and Why*, a recent book by Phyllis Tickle that explores our changing times and how this impacts faith and church. (On January 29 the class is invited to observe the choir practice under the direction of guest Mark Hayes)
