

Sodergren Hall Improvements. In 2008 First Immanuel determined that a ramp from the street level on 18th Avenue to the lower level of Sodergren Hall and a new entrance to that area were necessary in order to provide wheelchair access to clients of the Rose Haven ministry headquartered there. A ramp would also make it easier to transport food items to the food box distribution area operated by Northwest Portland Ministries.

Funding was obtained from the First Immanuel building fund, the local Rotary Club, the Meyer Memorial Trust, and the Mission Investment Fund of the Evangelical Lutheran Church in America. Construction on the ramp began early in January, 2010, and is expected to be completed in March.

Congregation president Bobbi Varnes does the honors at the groundbreaking ceremony in December, 2009.
